### Septic System Service & Parts Providers

Service providers are persons or businesses that provide services that do not entail installation or alteration of a sewage treatment system. They are only permitted to perform services that do not require a permit, including: maintenance contracts, inspections, riser installation, servicing pumps/motors, servicing filters and chlorinators, etc. They may also be licensed as installers and/or pumpers.

The following list contains persons/businesses that are licensed and bonded as service providers for sewage treatment systems in Fairfield County, Ohio for the 2012 year. Service Providers are listed in alphabetical order.
